

Overview

- The eCourts Expungement System provides an automated mechanism for an expungement petition/proposed order/proposed amended order to be filed, reviewed, and processed by various user roles.
- The petitioner chooses cases to be expunged and submits a proposed order that is reviewed by the Prosecutor.
- The County Prosecutor submits a response of objection or no objection to the proposed order and send back to petitioner or directly to Court Staff/Judge to review.
- Court staff can schedule an expungement hearing manually outside the system. Moreover, they can review the complete list of cases, save the final order for the judge to review, or submit an expungement decision on behalf of the judge to deny, dismiss or grant the final order for expungement.
- A Judge can review the complete list of cases within the proposed order and submit an expungement decision to deny or grant the final order for expungement.

Roles and Access

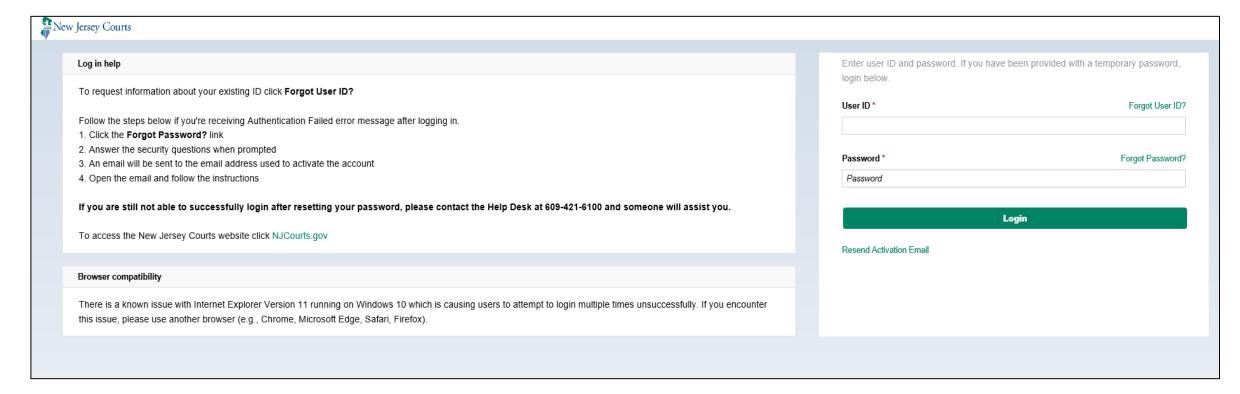

County Prosecutors can access and view the petition and/or proposed order submitted by the Petitioner, select charges for objection, enter case level objection or with no objection. The petition can be returned to the petitioner for revision or submit the response to the Court Staff/Judge.

The petition can be revised by the petitioner for any corrections or changes. The Revision Petition after review can be returned to the petitioner for further revision or submit the response to the Court Staff/Judge.
